TABLE OF CONTENTS

NUMBER 1, JANURAY 1980

McDonough, J P, Springer, W R & Barondes, S H, Species-specific cell cohesion in cellular slime molds. Demonstration by several quantitative assays and with multiple species 1

Aloe, L & Levi-Montalcini, R, Comparative studies on testosterone and L-thyroxine effects on the synthesis of the nerve growth factor in the mouse submaxillary salivary glands 15

Krieg, T, Aumailley, M, Dessau, W, Wiestner, M & Müller, P, Synthesis of collagen by human fibroblasts and their SV40 transformants 23

Marin, G, Origin and rate estimation of the spontaneous loss of anchorage dependence of growth in BHK21 cells 31

Osborn, M, Franke, W W & Weber, K, Direct demonstration of the presence of two immunologically distinct intermediate-sized filament systems in the same cell by double immunofluorescence microscopy. Vimentin and cytokeratin fibers in cultured epithelial cells 37

Yokoyama, M, Nishiyama, F, Kawai, N & Hirano, H, The staining of Golgi membranes with *Ricinus communis* agglutinin-horseradish peroxidase conjugate in mice tissue cells 47

Shen, S S & Steinhardt, R A, Intracellular pH controls the development of new potassium conductance after fertilization of the sea urchin egg 55

Higashino, S, Suzuki, K & Okazaki, H, Protective effects of glucocorticoids on gland stiffness and cell coupling in salivary gland of *Chironomus plumosus* larva 63

Piguet, P-F & Vassalli, P, Short-lived lymphoid cells respond more rapidly to stimulation by phytohemagglutinin or concanavalin A. An explanation for the apparent inhibitory effect of vinblastine on the activation of lymphoid cells 73

Tsuji, H & Tobari, I, Effects of 5-bromodeoxyuridine on metamorphosis and on cell cycle kinetics of ganglion cells in *Drosophila melanogaster* 79

Mahagaokar, S, Orengo, A & Rao, P N, The turnover of deoxyuridine triphosphate during the HeLa cell cycle 87

Adolph, K W, Organization of chromosomes in mitotic HeLa cells 95

Buys, C H C M & Osinga, J, The mechanism of differential sister chromatid fluorescence as studied with the GC-specific DNA-ligand mithramycin 105

Conscience, J-F & Meier, W, Coordinate expression of erythroid marker enzymes during dimethylsulfoxide-induced differentiation of Friend erythroleukemia cells 111

Wyss, C, Loss of ecdysterone sensitivity of a *Drosophila* cell line after hybridization with embryonic cells? 121

Pinto da Silva, P, Peixoto de Menezes, A & Mather, I H, Structure and dynamics of the bovine milk fat globule membrane viewed by freeze fracture 127

Jepsen, A, MacCallum, D K & Lillie, J H, Fine structure of subcultivated stratified squamous epithelium 141

Lillie, J H, MacCallum, D K & Jepsen, A, Fine structure of subcultivated stratified squamous epithelium grown on collagen rafts 153

Kato, Y, Nasu, N, Takase, T, Daikuhara, Y & Suzuki, F, A serum-free medium supplemented with multiplication-stimulating activity (MSA) supports both proliferation and differentiation of chondrocytes in primary culture 167

Bajszár, G, Raskó, I, Burg, K & Péter, S L, Temporal sequence of replication of the chicken-specific DNA in Chinese hamster-chick red blood cell hybrids 175

Bottenstein, J E, Skaper, S D, Varon, S S & Sato, G H, Selective survival of neurons from chick embryo sensory ganglionic dissociates utilizing serum-free supplemented medium 183

Knecht, E, Hernández-Yago, J, Martinez-Ramón, A & Grisolía, S, Fate of proteins synthesized in mitochondria of cultured mammalian cells revealed by electron microscope radioautography 191

Kligman, D & Nameroff, M, Analysis of the myogenic lineage in chick embryos. I. Studies on the terminal cell division 201

Schweiger, A & Kostka, G, Identification of a 110 000 molecular weight protein associated with heterogenous nuclear RNA and messenger RNA in rat liver cells 211

Britch, M & Allen, T D, The modulation of cellular contractility and adhesion by trypsin and EGTA 221

Legault-Demare, L, Zeitoun, Y, Lando, D, Lamande, N, Grass, A & Gros, F, Expression of a specific neuronal protein, 14-3-2, during in vitro differentiation of neuroblastoma cells 233

Mora, M, Darżynkiewicz, Z & Baserga, R, DNA synthesis and cell division in a mammalian cell mutant temperature sensitive for the processing of ribosomal RNA 241

NUMBER 2, FEBRUARY 1980

Distèche, C, Bontemps, J, Houssier, C, Frédéric, J & Fredericq, E, Quantitative analysis of fluorescence profiles of chromosomes. Influence of DNA base composition on banding 251

Hauser, M, Hausmann, K & Jockusch, B M, Demonstration of tubulin, actin and α-actinin by immunofluorescence in the microtubule-microfilament complex of the cytopharyngeal basket of the ciliate *Pseudomicrothorax dubius* 265

Surani, M A H, Barton, S C & Burling, A, Differentiation of 2-cell and 8-cell mouse embryos arrested by cytoskeletal inhibitors 275

Aizawa, S, Mitsui, Y & Kurimoto, F, Cell surface changes accompanying aging in human diploid fibroblasts. II. Two types of age-related changes revealed by concanavalin A-mediated red blood cell adsorption 287
Aizawa, S, Mitsui, Y, Kurimoto, F & Matsuoka, K, Cell surface changes accompanying aging in human diploid fibroblasts. III. Division age and senescence revealed by concanavalin A-mediated red blood cell adsorption 297
Szpirer, C & Szpirer, J, Suppression of the transformed phenotype of hepatoma cells after hybridization with normal diploid fibroblasts 305
Poon, N H & Seligy, V L, Fine structure of mononucleosomes derived by bright- and dark-field electron microscopy 313
Kaufman, S J, Parks, C M, Bohn, J & Faiman, L E, Transformation is an alternative to normal skeletal muscle development 333
Henry, S M, Weinfeld, H & Sandberg, A A, Effects of divalent cations and glucose on mitotic-like events in fused interphase-metaphase cells 351
duBois, M, Bowman, P D, Meek, R L & Daniel, C W, Stimulation of protein synthesis in cytochalasin B-enucleate human fibroblasts by dexamethasone and insulin 363
Englert, D F, An optical study of isolated rat adrenal chromaffin cells 369
Halleck, M S & Gurley, L R, Histone H2A subfractions and their phosphorylation in cultured *Peromyscus* cells 377
Angello, J C & Hauschka, S D, Hyaluronate-cell interaction. Effects of exogenous hyaluronate on muscle fibroblast cell surface composition 389
Will, H & Bautz, E K F, Immunological identification of a chromocenter-associated protein in polytene chromosomes of *Drosophila* 401
Sandra, A, Interaction of phospholipid vesicles with cultured myogenic cells. Effects on cell fusion 411
Travis, J L, Allen, R D & Sloboda, R D, Preparation and characterization of native, fluorescently labelled brain tubulin and microtubule-associated proteins (MAPs) 421
Datta, P & Natraj, C V, Fibroblast growth regulatory factor inhibits DNA synthesis in BALB/c 3T3 cells by arresting in G1 431
Jacobson, D N, Locomotion of *Physarum polycephalum* amoebae is guided by a short range interaction with *E. coli* 441
Matsumura, T, Pfendt, E A, Zerrudo, Z & Hayflick, L, Senescent human diploid cells (WI-38). Attempted induction of proliferation by infection with SV40 and by fusion with irradiated continuous cell lines 453
Pragnell, I B, Arndt-Jovin, D J, Jovin, T M, Fagg, B & Ostertag, W, Commitment to differentiation in Friend cells and initiation of globin mRNA synthesis occurs during the G1 phase of the cell cycle 459
Okita, T W & Volcani, B E, Role of silicon in diatom metabolism. X. Polypeptide labelling patterns during the cell cycle, silicate-starvation and recovery in *Cylindrotheca fusiformis* 471

PRELIMINARY NOTES

Marshall Graves, J A, Evidence for an indirect effect of radiation on mammalian chromosomes. I. Indirectly-induced chromosome loss from somatic cell hybrids 483
Kitamura, A & Hiwatashi, K, Reconstitution of mating active membrane vesicles in *Paramecium* 486
Papamichail, M, Tsokos, G, Tsawdaroglou, N & Sekeris, C E, Immunocytochemical demonstration of glucocorticoid receptors in different cell types and their translocation from the cytoplasm to the cell nucleus in the presence of dexamethasone 490
Duker, N J & Grant, C L, Alterations in the levels of deoxyuridine triphosphatase, uracil-DNA glycosylase and AP endonuclease during the cell cycle 493
Marceau, N, Goyette, R, Valet, J P & Deschenes, J, The effect of dexamethasone on formation of a fibronectin extracellular matrix by rat hepatocytes in vitro 497
Wolf, B, Molecular basis for genetic complementation in propionyl CoA carboxylase deficiency 502
Rao, P N & Sunkara, P S, Correlation between the high rate of protein synthesis during mitosis and the absence of G1 period in V79-8 cells 507
Ockey, C H, Autoradiographic evidence of differential loss of BUdR-substituted DNA after UV exposure in FPG harlequin staining 511
Habicht, J & Brune, K, Carbocyanine dyes stain the sarcoplasmic reticulum of beating heart cells 514
Glätzer, K H, Regular substructures within homologous transcripts of spread *Drosophila* germ cells 519
Author index 524
Subject index 525
